AIRplus® 100% RECYCLED RESOURCE-SAVING AND SECURE

AIRplus® 100% RECYCLED IS LIGHTWEIGHT, SUSTAINABLE PROTECTIVE PACKAGING.

Storopack AIRplus® 100% Recycled film consists of 100 percent recycled material and is ideal for companies that value sustainability. The film is made of post-consumer and post-industrial recycled material certified by RecyClass and delivers the outstanding properties associated with conventional AIRplus® cushioning. AIRplus® 100% Recycled films are lightweight and space-saving thus minimizing operational costs while also helping reduce greenhouse gas emissions and water consumption*.

AIRplus® 100% Recycled meets all requirements of the ClimatePartner certification

We work intensively to reduce the emissions of our products. However, it is not possible to avoid all emissions during production and shipment.

Therefore, we work with ClimatePartner to measure and reduce the carbon footprint. The “ClimatePartner certified” label confirms our work on good and sustainable product design and conscious decision-making. For all residual CO₂ emissions, Storopack supports climate projects.

STOROPACK – PERFECT PROTECTIVE PACKAGING

Wherever in the world you send your products, we want them to be well protected while in transit.

AIRplus® TRANSFORMS AIR INTO THE OPTIMAL PROTECTIVE PACKAGING.

Our AIRplus® packaging system optimally protects your products with air cushions in a variety of forms. Whether wrapping fragile shipping goods or filling voids, AIRplus® air cushions are versatile, especially light, reduce transport costs, and can be reused or recycled.
